

# Differentiate your Pharmacy Software by Offering the Nation's first Concierge Medication Safety Program™

## First and only accumulative, multi-drug risk analysis tool

### Features

- Medication Risk Score alert in workflow
- Actionable interventions help reduce medication risk
- Identification of the multi-drug-gene interactions that can often be managed by time of day

### Process, Modern APIs

- Embed into pharmacy software workflow
- Extract medication list to populate risk visualization

### Benefits

- Concierge Medication Safety Program offers monthly recurring revenue
- Reintroduction of Pharmacokinetic/Pharmacodynamic science for pharmacists at the point-of-care
- Pharmacogenomic testing and results repository for ongoing clinical application
- **MyMedWiseAdvisor™** app option for patients
- Positioned for value-based care partnerships
