American Society for Automation in Pharmacy

ASAP

2019 Midyear Conference

June 26–28, 2019
The Mayflower Hotel
Washington, DC

CONFERENCE HIGHLIGHTS

DSCSA Regulatory Update

Prescriber Data Validation

Provider Status, Healthcare Costs:
The Pharmacist's Role

Digital Therapeutics and the Role
of the Pharmacist

Healthcare APIs Join the Revolution

Changing the Pharmacy Payment Model

Data Quality and Prescription Monitoring
Programs

State Legislative Update

Implementing Digital Health in Pharmacy:
Lessons from the AMA

Early Bird Registration Available Until May 30

Online conference registration available
by visiting www.asapnet.org/registration.html

American Society for Automation in Pharmacy | 492 Norristown Road, Suite 160 | Blue Bell, PA 19422

ASAP

Wednesday, June 26

3:30 – 5:00   Registration

5:00 – 6:30   Opening Cocktail Reception

Thursday, June 27

8:00 – 8:45   Continental Breakfast

8:45 – 9:00   Gold Sponsor Podium Time

9:00 – 9:30   DSCSA Regulatory Update

Heather Zenk, R.Ph., Pharm.D., SVP, Manufacturer and Replenishment Operations, AmerisourceBergen

Heather will bring you up to date on the current requirements of the Drug Supply Chain Security Act (DSCSA), also known as Track and Trace. She'll cover the impact to pharmacy systems and automation, and what to be prepared for next so that all trading partners understand their responsibilities and work together to help facilitate efficient distribution and availability of drug products in the United States.

9:30 – 10:00   Prescriber Data Quality: The Secret to Smoother Transactions

A.J. Lipka, Healthcare Reference Data Analyst, IQVIA

How clean is your master database of prescribers and other healthcare professionals? If it's not squeaky clean, you may have a problem. Did you know critical physician data elements such as practice location, licensure status, credentials, and sanctions activity deteriorate at a rate of 15% a year? A.J. will review the importance of maintaining accurate, updated reference data across your organization and within your pharmacy systems. Learn how to keep your data sets fresh and updated for more reliable prescription validations and faster claims adjudication.

10:00 – 10:30   Break

10:30 – 11:00   Provider Status and Healthcare Costs: The Pharmacist's Role

Tom Menighan, R.Ph., M.B.A., Executive Vice President and CEO, American Pharmacists Association

Tom will bring the latest word on efforts to achieve provider status for pharmacists, the role pharmacists are playing in addressing pressing healthcare needs and cost control, and more.

11:00 – 11:30   Digital Therapeutics and the Role of the Pharmacist

Ann Johnson, Pharm.D., Consultant Pharmacist, Research and Innovation, Pharmacy Healthcare Solutions, Inc.

Digital therapeutics are growing in variety and importance in healthcare. Ann will provide attendees with a background on digital therapeutics, specifically those that combine drugs, devices, and technology to improve patient health. The FDA's proposed framework for "Prescription Drug-Use-Related Software" provides insight into how the FDA may approach digital therapeutics in the future, and the FDA has already received stakeholder perspectives on the proposed framework. A major area for FDA consideration is the impact of digital therapeutics on drug compendia listings, as compendia impact electronic health records, pharmacy management systems, and payer adjudication systems. For pharmacists, digital therapeutics may provide benefits that enhance patient care. Ann will discuss opportunities for adherence initiatives, data available from digital therapeutics, the role that pharmacists can play, and opportunities for pharmacist compensation.

11:30 – 12:00   Healthcare APIs Join the Revolution

Tom Wilson, Chief Technology Innovation Officer, JRS Innovation Center, a Division of Tabula Rasa HealthCare

A revolution in healthcare Interoperability is emerging. In this talk, you will learn about healthcare APIs, HL7 FHIR, and SMART technologies that are converging to enable the sharing of healthcare data like never before. This revolution is starting to produce effective results in health data exchange and will provide patients greater control of their healthcare.

12:00 – 1:30   Lunch

1:30 – 5:30   Networking and Business Meetings

5:30 – 6:30   President's Reception

Friday, June 28

8:00 – 8:45   Continental Breakfast

8:45 – 9:00   **Midyear Report on ASAP Activities**

9:00 – 9:30   **Changing the Pharmacy Payment Model**

B. Douglas Hoey, R.Ph., M.B.A, CEO, National Community Pharmacists Association

Prescription drug prices are complex, cumbersome, and most of all, covert for pharmacists and patients. Additionally, pharmacist services are increasingly valued but are vying to find a place in this confusing payment scheme. Doug will focus on developments to the pharmacy payment model that will produce higher-quality outcomes and lower costs.

9:30 – 10:00   **Data Quality and Prescription Monitoring Programs: An Essential Partnership**

Ralph Orr, B.P.A., Director, Virginia Prescription Monitoring Program

Ralph will provide an overview of the purpose of prescription monitoring programs (PMPs), discuss the importance of data quality, and highlight common reporting errors and challenges.

10:00 – 10:15   **Break**

10:15 – 10:45   2019 State Legislative Update

Scott Pace, Pharm.D, J.D., Partner, Impact Management Group

Scott will provide a look at the key pharmacy-focused legislation that's moving through the states in 2019.

10:45 – 11:30   **Implementing Digital Health in Pharmacy: Lessons from the AMA**

Brent Fox, Pharm.D., Ph.D., Associate Professor, Auburn University Harrison School of Pharmacy

Pharmacists and their technology vendor partners are faced with an expanding menu of IT innovations that promise to bring meaningful change in both the pharmacist's workflow and the patient's experience. While the hype accompanying some innovations does come to fruition, many innovations simply do not pan out. Among today's healthcare innovations, digital health is one of those innovations receiving considerable hype. Defined as "the cultural transformation of how disruptive technologies that provide digital and objective data accessible to both caregivers and patients leads to an equal level doctor-patient relationship with shared decision-making and the democratization of care," digital health is enabled by the proliferation of consumer electronics and the ongoing transformation of the patient's role as an active partner in his or her own care. Recognizing the challenges of implementing digital health and other IT innovations in medical practices, the American Medical Association developed a guide for digital health integration. Brent will highlight the AMA guide, focusing on principles and applications for pharmacy.

REASONS WHY YOU SHOULD ATTEND:

"As always, I enjoy the intimate nature of ASAP conferences. The content is always relevant and the networking opportunity is greatly appreciated."

"ASAP continues to be the best conference to discuss business opportunities between vendors. Other shows require vendors to focus on customers, which prevents meaningful discussions."

"Love the concise overview of many relevant topics by great speakers."

"The most valuable conference I've attended because the topics were great."

Online conference registration available by visiting www.asapnet.org/registration.html

MEETING DETAILS

HOTEL INFORMATION

Don't delay in making your room reservation. Rooms will go quickly at the meeting rate of $309 per night plus tax, available until May 27. Call 202-347-3000 and mention the American Society for Automation in Pharmacy. The Mayflower is listed on the National Register of Historic Places and has enjoyed a reputation as one of D.C.'s most noteworthy addresses since 1925. It's been called the "Grande Dame of Washington," the "Hotel of Presidents," and was referred to as the city's "second-best address" by President Harry S. Truman. The hotel is two blocks from Farragut Square and close to many of Washington's attractions, including the White House, the National Mall, and the museums of the Smithsonian. EDGAR, The Mayflower's signature restaurant, offers a brasserie-style environment. The hotel also has a 24-hour fitness center with modern equipment.

GROUND TRANSPORTATION

The Mayflower is five miles from Ronald Reagan Washington National Airport (DCA), with an estimated taxi fare of $23, one way; 27 miles from Washington Dulles International Airport (IAD), with an estimated taxi fare of $85, one way; and 36 miles from Baltimore/Washington International Thurgood Marshall Airport (BWI), with an estimated taxi fare of $70, one way. You can also use the Washington Metro. The Farragut North (Red Line) stop is 0.1 miles from the hotel and the Farragut West (Blue, Orange and Silver Lines) stop is 0.2 miles from the hotel. The Mayflower does not provide shuttle service.

MEETING ATTIRE

Attire for this meeting is business casual. Average June temperatures in Washington, D.C. range between 85° F and 63° F.

ASAP REGISTRATION FORM

Are you an ASAP member? ❑ Yes ❑ No

Name _____

Preferred name for badge _____

Company/Pharmacy_____

Position _____

Address _____

City _____ State _____ ZIP _____

Phone _____

Email _____

Arrival and departure dates _____

Registration before May 30: $950 Members • $1,650 Nonmembers (includes membership)

Registration after May 30: $1,085 Members • $1,785 Nonmembers (includes membership)

Spouse/guest name, if attending (registration: $125) _____

Registration fees for this conference are nonrefundable, but are transferable.

Check is enclosed for $ _____ (make payable to ASAP)
